

The Guild of Cheese Graders

Cheese grader training – a new beginning!

The Guild of Cheese Graders has been created to give a fresh approach to providing cheese graders with the basic skills required for their role and proof of ability.

The Guilds' objectives are:

- A) To provide the individual with training to prove basic abilities of taste, smell and cheese assessment.
- B) To ensure that graders correctly understand and implement the language of cheese grading and the use of the cheese iron.
- C) To provide independently verified proof of training and sensory ability.
- D) To provide the industry with a specifically designed resource offering a leading, in-depth course with renewable membership criteria.

Who can join? The Guild of Cheese Graders is open to all regardless of their current role and experience.
